PROFESSIONAL PROFILE

Highly motivated Computer Science student at UET Lahore with expertise in building scalable full-stack web applications. Specialized in the MERN stack (MongoDB, Express, React, Node.js) and Next.js. Founder of **SAMStack Studio**, a software engineering agency delivering enterprise-grade digital solutions. Passionate about clean architecture, performance optimization, and seamless user experiences.

KEY ENGINEERING PROJECTS

Enterprise E-Learning Management System

FULL STACK

Architected a scalable, end-to-end e-learning platform for high-volume users. Implemented RBAC, course distribution, progress tracking, and automated certification generation.

React Node.js MongoDB

Airline Reservation & Ticketing Portal

BACKEND HEAVY

Engineered a robust flight booking engine with PHP and MySQL. Developed real-time seat availability, secure user authentication, and dynamic PDF ticket generation.

PHP MySQL Bootstrap

Next.js Interactive Portfolio & Blog

FRONTEND DESIGN

Built a highly optimized, SEO-friendly portfolio using Next.js App Router. Integrated markdown rendering for tech blogs, Framer Motion animations, and industrial-grade LLMO optimization.

Next.js Tailwind Firebase

EDUCATION

BS in Computer Science

Expected 2028

University of Engineering & Technology (UET), Lahore

Advanced Web Applications Diploma

Completed

Yashfeen College, Shahdara — PHP & Laravel

TECHNICAL SKILLS

FRONTEND

React.js Next.js Tailwind CSS
Redux Framer Motion

BACKEND & APIS

Node.js Express PHP
Laravel REST APIs

DATABASES & TOOLS

MongoDB MySQL Firebase
Git Postman

CORE LANGUAGES

JavaScript (ES6+) TypeScript
C++ Python Dart

CERTIFICATIONS

Python Specialization

Scrimba / Coursera

Cybersecurity Essentials

University of Maryland

AVAILABLE FOR

- Full-Stack Development
- MERN Stack Projects
- Next.js Applications
- Remote Consulting
